TESSUTO PER  
ARREDAMENTO  
FURNISHING FABRIC

FEDERA 100% COTONE  
100% COTTON PILLOWCASE

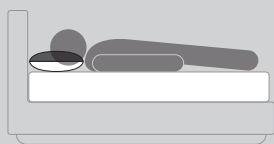

Il versatile cuscino pieghevole inventato, **brevettato e prodotto interamente in Italia.** Grazie ad uno speciale taglio in diagonale, il guanciale può assumere una posizione autostabile che offre un diverso angolo di supporto, fino a simulare il volume di tre cuscini sovrapposti, è comodo a letto, sul divano ma anche in macchina, in camper, in barca e perfino in ufficio.

The versatile folding cushion invented, **patented and produced entirely in Italy.** Thanks to a special diagonal cut, the pillow can assume a self-stable position that offers a different angle of support, up to simulating the volume of three overlapping pillows, it is comfortable in bed, on the sofa but also in the car, on the camper, on the boat and even in the office.

## **UN BREVETTO CHE CI RENDE UNICI.**

I profili presenti sulla base dei nostri cuscini oltre a renderli unici e riconoscibili, permettono di ottenere in fase di stampo una perfetta uniformità della superficie del cuscino.

## **A PATENT THAT MAKES US UNIQUE.**

In addition to making our pillows unique and recognisable, the profiles on the base of our pillows allow a perfectly even pillow surface to be obtained during the moulding phase.
